Roads There is a concern about rocks being spread with the gravel on Road 3 at the top of the hill going right. Brushing has been done on all roads and the boat launch. There are issues with cottagers leaving material in the ditches. We will speak to the contractor about screening pit run until we can obtain more crushed gravel. Motion Kevin White/Troy Martin Obtain quotes from local contractors for crushed gravel. Carried.

Roads need grading.

Dump The dump has been pushed. The road has been graveled and needs grading. A new temporary sign for an area for burnables containing metal has been installed. Lagoon sample has been sent. Once we get approval, cell will be drained and repair made to pipe.

Fire The August 23, 2014 fire was discussed. Issues that need addressing are being followed up on. The bottom line is the Setting Lake Fire Brigade met its mandate of containing the fire and saving adjacent buildings. Congratulations to the members of the Brigade for a job well done. New caps are being looked at as our supply is done. The fire hall is closed in and wired. Hydro inspection will take place soon and the door will be installed soon. Thanks to the volunteers who worked on the project under the leadership of Lloyd White. Thanks to Ken Patterson for donating the Skyjack Lift.
