

- 3) Your payment is entirely refunded upon completing your electrical wiring and having your cottage connected permanently.
- \* 4) This request applies only to people with lots along the road section. After the road is completed we will attempt to arrange a similar setup for the other lot owners. A letter is being sent to Ken MacMaster requesting that money be made available to complete the road.
- 5) The membership asks that everyone who plans to install hydro, participate in the cost sharing.
- 6) If we do NOT receive at least 22 participants we cannot go ahead with the plan. This will mean waiting until enough cottages are completed to receive hydro. At a later date if may cost us several hundred dollars to have hydro put in and this may not be refundable.
- 7) All people who return the attached sheet will receive another letter stating the exact cost and request <sup>via</sup> cheque for that amount.

Jack Wilson also informed us that Hydro is not responsible for bush clearing for the line. At the meeting someone made us an offer we wouldn't refuse. One of the lot owners indicated that a crew of men would be willing to clear the bush for us if we supplied some 'refreshments' for them. The membership then decided to increase the suggested membership fee from \$5.00 to \$10.00. This fee is to pay for miscellaneous expenses and for the refreshments for the bush clearing crews. If you are interested in becoming a member and would like to benefit from the joint efforts of the association and have not yet paid your fee, I would encourage you to send your fee as soon as possible. Make your \$10.00 cheque payable to Mike Mracek. He is the secretary-treasurer for the association. His address is 219 Deerwood Dr.

If you have any questions about the above information you may call me at 8-8432.

Sincerely,

Waldo Klassen  
Chairman - Setting Lake Cottage Owners  
Association
